Brand Beacon

Make 3 short videos about Brand Beacon

Brand Beacon finds the TikToks about any brand that broke out.

brandbeacon.io

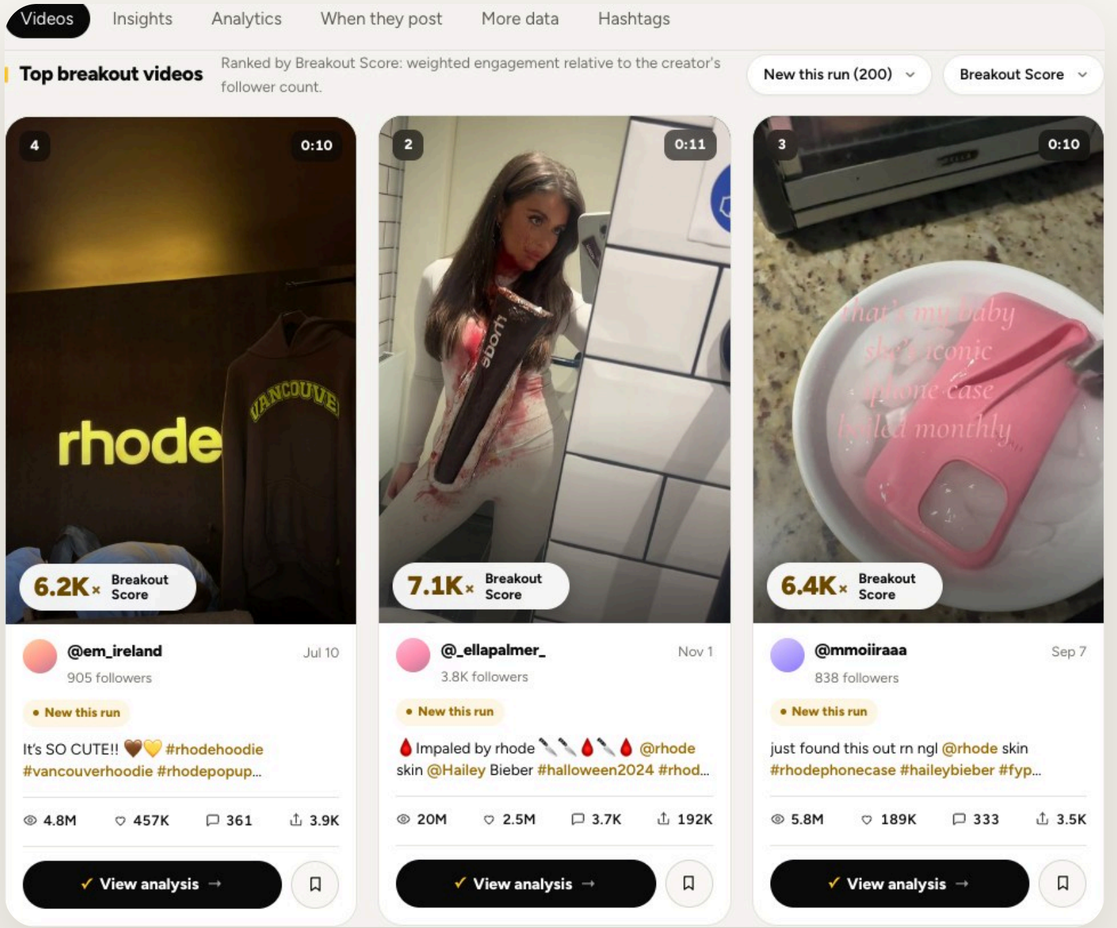

What Brand Beacon does

Facebook has an ad library. Organic TikTok doesn't. So we built it.

- Type any brand or product. Brand Beacon scans TikTok for videos about it.
- It picks out the breakouts: videos that got far more views than that creator usually gets.
- Open any breakout to see why it worked, from the hook to what to film next.

> **Made for brand and social media teams who want TikTok ideas that already worked.**

What’s in it for you

A tech brand for your portfolio

A paid project for a TikTok tool that brands use. Good proof for future brand deals.

No script to learn

We give you the ideas. You say them your way, in your own words.

Simple to film

Your phone, plus a screen recording of the app. No props or locations.

Ideas for your own content

While you film, search any brand you work with and see which TikToks about it broke out.

Your 3 videos. Say it your way.

1

Stop copying the most viewed TikTok

Big accounts get views on anything. A breakout from a tiny account tells you the idea worked.

2 **Show: a huge video from a tiny account**

2

What is TikTok saying about your brand?

Ask brand marketers if they know which TikToks about them took off.

1 **Show: search a brand, live**

3

What one brand's top TikToks have in common

Share what you noticed, then reveal you found them all in one search.

3 **Show: why it worked**

Pick any style

Ways to film it

1 Myth, then proof

Start with something marketers believe, like “more followers, more views”. Prove it wrong in the app.

2 Quick skit

Act out an excuse every brand makes about TikTok, then answer it with one search.

3 Guess the breakout

Show two TikToks and ask which one blew up. Let the app give the answer.

4 Screen walkthrough

Say what you’re about to find, then show it on your screen from start to finish.

5 React to a breakout

React to a huge video from a tiny account, then show how you found it.

6 A day in social media

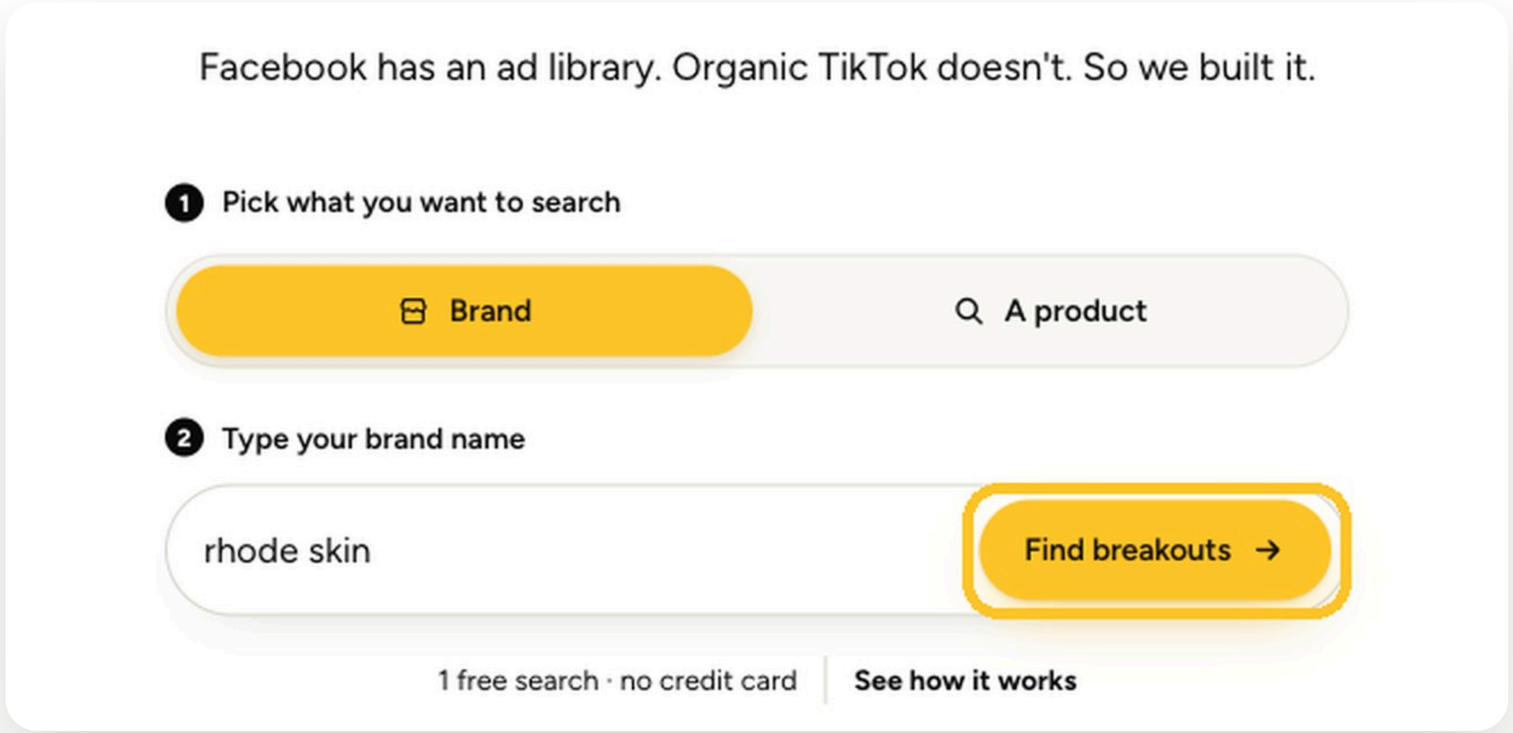

Play a social media manager who finds next week’s idea in one search.

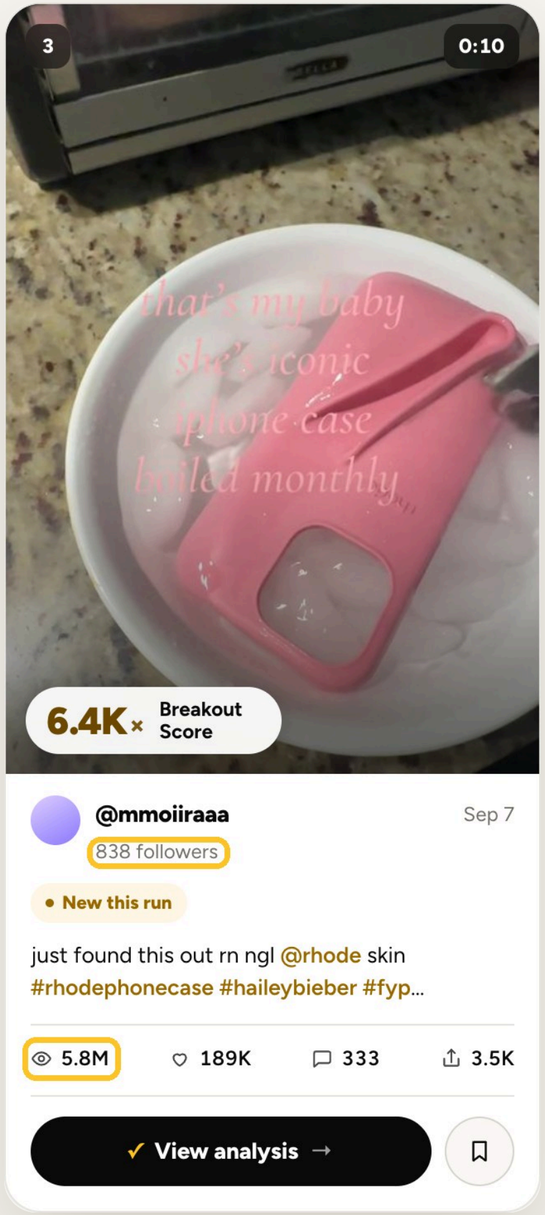

Whatever you pick, end on something free: your first search.

1

Search a brand

Type any brand, then tap Find breakouts.

2

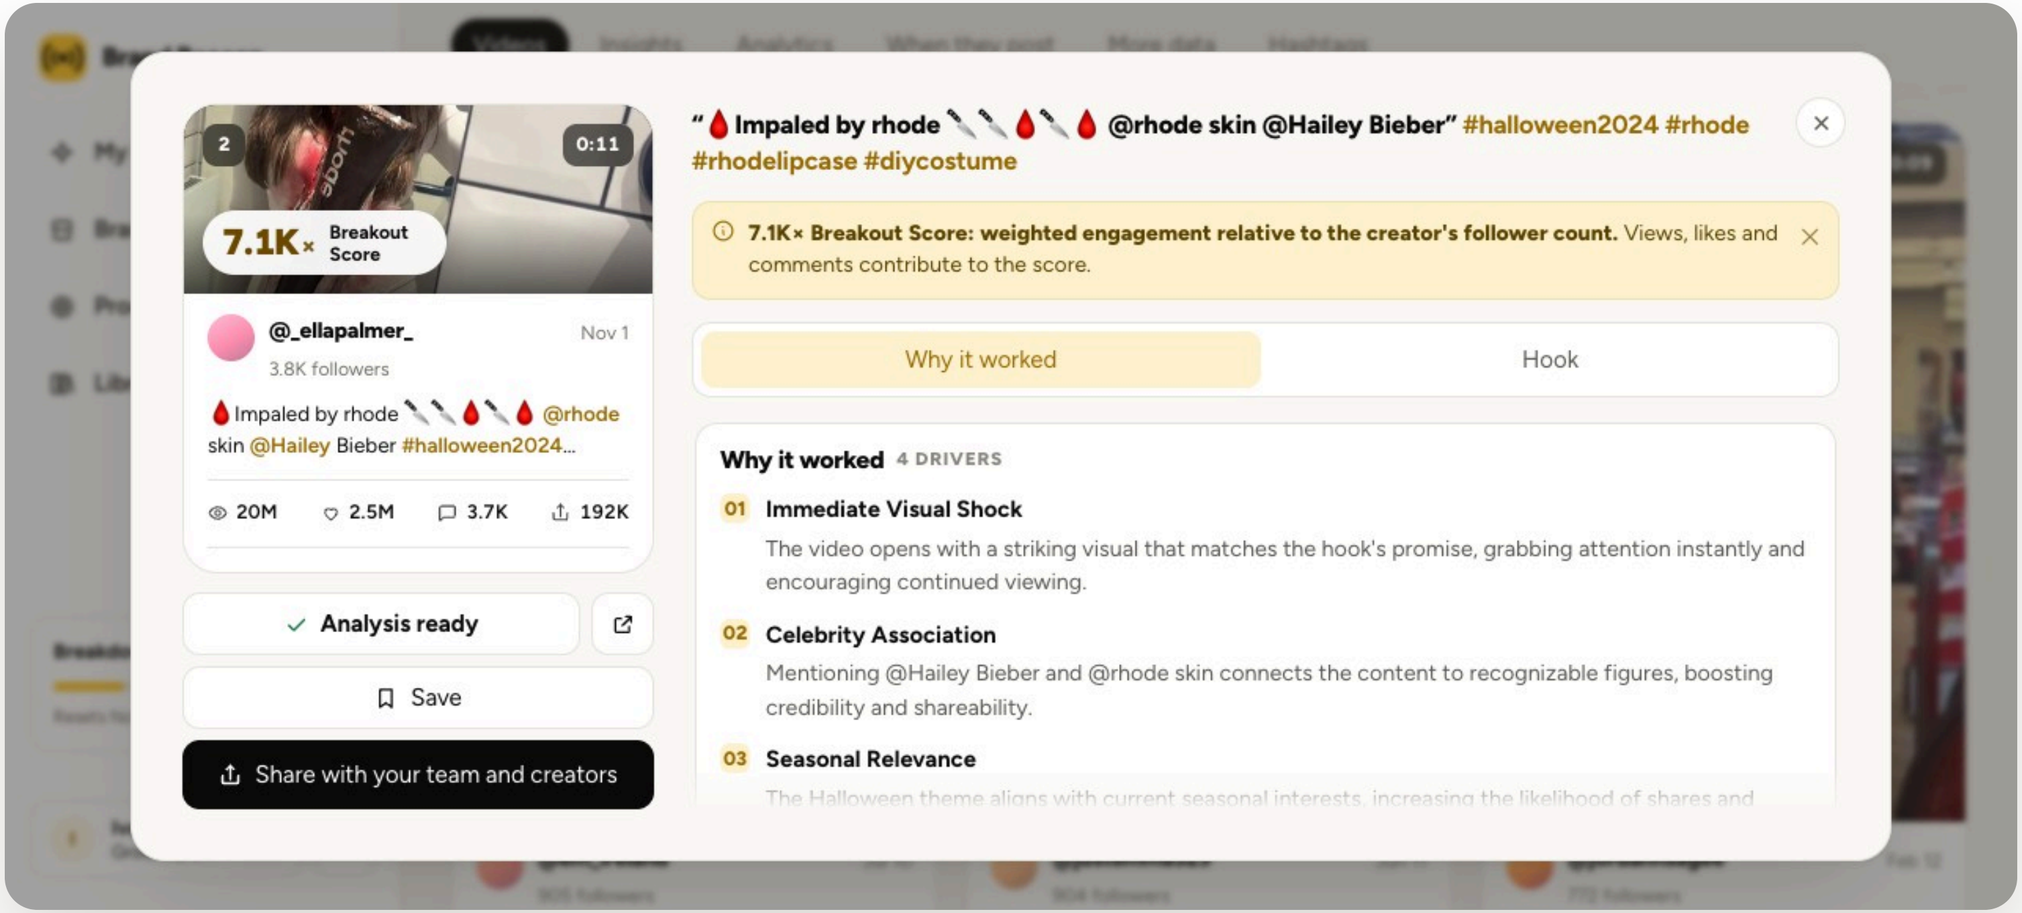

A huge video from a tiny account

Point at the views, then the followers.

5.8M views

838 followers

> That's a breakout: far more views than this creator usually gets.

3

Why it worked

Open a video’s analysis and read one reason out loud.

Optional

Need a first line? Borrow one.

> “Stop copying the TikTok with the most views.”

> “Do you know what TikTok is saying about your brand right now?”

> “This TikTok blew up, and almost nobody follows the account.”

Film 3 different openings for each video. Your own words are better.

Dos and don’ts

Do

- ✓ Screen-record the app on the login we send you
- ✓ Say only the numbers you see on your own screen
- ✓ Use the words “breakout” and “Breakout Score”
- ✓ Film 3 different openings for each video
- ✓ Keep it natural, like you’re showing a friend

Don’t

- ✕ Say you’ve used the app for months. It’s your first look
- ✕ Mention Instagram, YouTube or Reels. Brand Beacon is TikTok only
- ✕ Make up numbers or results
- ✕ Read a script word for word
- ✕ Add captions or music. We add text in the edit

End every video on **“Your first search is free, no credit card, at brandbeacon.io.”**

Next steps

1

Send us your rate

Tell us your price for the 3 videos and when you can film.

2

Get your login

Once you’re booked, we send your Brand Beacon login by Mon 26 Oct.

3

Film and send

Send the 3 videos, raw takes and screen recordings by Mon 2 Nov.

4

One round of changes

If anything needs a fix, we ask once, by Wed 4 Nov.

Questions at any point? Just message us.
